## REFERENCE

Ms. Sumayyea Salahuddin  
Lecturer - Mobile App  
Development (Section D)  
CECOS University,  
Peshawar

## PROFILE

Motivated and detail-oriented Software Engineering student with strong interests in mobile development, cybersecurity, and agile project management. Hands-on experience in mobile app development using Flutter & Firebase, facial recognition systems with Python, and real-time inventory systems. Certified ScrumMaster (CSM) with a deep understanding of agile methodologies and team collaboration. Currently pursuing cybersecurity training with the goal of becoming a SOC Analyst and eventually specializing in forensics or blue team defense.

## WORK EXPERIENCE

**SK Engineering of Arms - Peshawar, Pakistan** JULY - SEPT 2024  
Inventory Management Intern

- Managed inventory using Excel spreadsheets to track stock levels and production readiness.
- Improved reporting and documentation for operational visibility.
- Collaborated with staff to streamline tracking of in-stock and out-of-stock tools.

**Face Recognition Attendance System (Python + Mobile - Ongoing)** April 2025 - Present

Python (OpenCV) | Firebase | Flutter

- Developed a facial recognition system in Python for attendance marking.
- Integrated Firebase Authentication and Firestore for backend.
- Currently converting into a mobile app using Flutter and Python backend via API.

**Todo Master - Task Management App** March 2025 - June 2025  
Flutter | Firebase Authentication | Cloud Firestore

- Built a task management mobile app with real-time features and a clean UI.
- Authenticated users via Firebase and synced tasks using Firestore.
- Successfully presented in Mobile Application Development course.

## EDUCATION

**Bachelor of Science in Software Engineering** 2023 - 2027

CECOS University, Peshawar

**Current CGPA: 3.32 (GPA for 4th semester pending)**

**FSc (Computer Science)** 2022

Army Public School and College, Peshawar

**GPA: 3.7 / 4.0**
